

TOBACCO SALES QUIZ

You may complete your quiz during or after you have watched the online video. This quiz is designed to test your knowledge on preventing illegal tobacco sales. Once you have completed your quiz; sign, date, and list your place of work at the bottom of the quiz and return it to the Tooele County Health Department or WIC in Wendover. Thank you and good luck!

1. In Utah, the legal age to buy or possess tobacco is:
 - 18
 - 19
 - 20
 - 21

2. Studies have shown that regular smokers have started smoking before the age of 19.
 - True
 - False

3. A tobacco product is any product that consists of nicotine in a form of a:
 - Cigarette
 - Cigar
 - Chewing/spitting/smokeless tobacco
 - Snuff
 - Loose tobacco
 - All of the above

4. Federal law requires that you check the photo ID for anyone appearing under the age of:
 - 24
 - 25
 - 26
 - 27

5. Selling tobacco once to an underage youth could result (for clerks) in a:
 - Class A Misdemeanor – Fines up to \$2,500, or up to one year in jail, or both.
 - Class B Misdemeanor – Fines up to \$1,000, or up to six months in jail, or both.
 - Class C Misdemeanor – Fines up to \$750, or up to 90 days in jail, or both.

6. Federal law requires that while selling tobacco products:
 - You must be in direct face to face contact
 - You must know your customer
 - Can only sell to anyone over the age of 27

7. It is okay to open a package and sell tobacco products in a smaller amount.
 - True
 - False

8. Which of the following are acceptable forms of ID for tobacco sales? (Check all that apply.)

- Current drivers license
- Credit card with picture
- Student Identification Card
- Current Military Identification Card
- Current Passport

9. To check if an ID is current you should:

- Ask the customer to say their date of birth
- Accept all forms of ID
- Never check the picture on the card with the person
- Make sure the ID is not expired

10. If a customer says his/her date of birth you do not have to check the ID.

- True
- False

11. Calculating age of a customer: $(\text{Birth date} + 20) - 1 = \text{date at which customer will turn 19}$.

If a customer's birth date is March 28, 1997, and today's date is June 17, 2013, you can legally sell tobacco to this customer:

- On June 17, 2013
- On August 14, 2014
- On January 1, 2015
- On March 28, 2016

12. Common mistakes while making a tobacco sale are:

- Overriding the system
- Asking the customer to say their date of birth
- Miscalculation of age
- Accepting non-valid forms of ID
- All of the above
