

1 in 3 homes in Utah have unsafe levels of Radon. Radon is a gas that is naturally occurring in the environment, and is harmful to your health!

Can you help us get the word out?

We need your help to let people know that radon can be dangerous. It is easy to test your home for radon. Test kits can be ordered for \$10.95 from Radon.Utah.Gov

What are you going to design?

Prizes

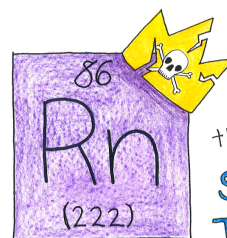

5 students and their teachers will each win \$100.

Prizes

Radon Poster Contest

ORDER AT RADON.UTAH.GOV

Not So Noble

RADON is a radioactive gas that you **CAN'T** SEE, SMELL, or TASTE.

To discover if you are in **DANGER**, go to radon.utah.gov

5 Topics:

- What is radon?
- Where does radon come from?
- How does radon get into our homes?
- Radon can cause lung cancer.
- Test your home for radon.
