

*The Utah Radon Coalition*

## **LOW INCOME RADON MITIGATION ASSISTANCE PROGRAM**

The Utah Radon Coalition (URC) is Utah's only all-volunteer provider of radon education and awareness, non-lobbying advocacy, and community service programs. The URC is an incorporated, 501(c)(3), nonprofit, member organization. Funding for our programs comes primarily from private and public donations and foundation grants.

The mission of the URC is to eradicate radon-induced disease by eliminating exposure to radon gas through education and awareness, non-lobbying advocacy, community service and collaborative planning and coordination.

The URC Low-Income Radon Mitigation Assistance Program provides financial assistance for radon mitigation services to qualified low-income homeowners. The intent of the program is to enhance a safe living environment for low-income homeowners and their families.

### **PROGRAM ELIGIBILITY GUIDELINES**

1. Except as provided in subsection (a) below, applicants must be considered a low-income household per the income limits specified in the income table provided with the program application. If the house is co-owned by persons who reside within or outside of the home, the combined federal adjusted gross income for all owners will be considered when determining eligibility for assistance.
  - a. Acting on its discretion, the URC may consider net income when determining program eligibility if extenuating circumstances beyond the applicant's control have significantly impacted the applicant's ability to afford mitigation services.
2. Homeowners applying for assistance must occupy the property as their primary (principal) residence and certify such occupancy by signing the application.
3. Homeowners including co-homeowners must be Utah residents.
4. Homeowners must have proof of ownership of the subject property.
5. A radon test result for the homeowner's residence greater than 4 pCi/L from a National Radon Proficiency Program or National Radon Safety Board (NRPP/NRSB) approved, accurately conducted test kit must be provided with application. If conducted by a radon measurer, the measurer must be certified by the NRPP or NRSB.

## **APPLICANT ELIGIBILITY DETERMINATION AND APPROVAL**

1. All applications are processed on a first-come, first-served basis.
2. Applications will be reviewed for completeness and eligibility within 30 days of receipt.
3. Missing, incomplete, or additional information may be requested from the applicant. These requests must be fulfilled within 15 days of the request or the application will be abandoned.
4. If approved, the homeowner will be notified via telephone and/or email, or if rejected, the homeowner will be notified via email with an explanation of rejection.
5. Acting on its discretion, the URC may grant priority for funding to applicants able to fund a portion of project costs.

## **HOW TO APPLY**

Interested persons may submit a service request on the Our Services page of the Utah Radon Coalition website, [www.utahradoncoalition.org](http://www.utahradoncoalition.org). Following receipt and review of the request, the requestor will be sent an application packet.
